- (1) Complete Applications for a Commercial Medical Marihuana Facility Permit determined to be in full compliance with the requirements of this Chapter shall be issued conditional approval in accordance with the procedures specified in this Section.

 - (4) Within 30 days from the issuance of a conditional approval the Applicant shall submit proof to the City that the Applicant has submitted a full application for such License, unless such information was provided in the Application. If the Applicant fails to timely submit such proof, the conditional approval shall be void, the application denied, and any lottery position void.
 - (5) A conditional approval and any lottery selection shall be void if an Applicant is denied prequalification for a License or is denied a License. Such denial shall be provided immediately to the Community Development Manager by the Applicant.
 - (6) A conditional approval does not prevent the Community Development Manager from requesting additional documentation, as required or permitted under this Chapter.
- (e) Lottery; Order of Special Use Permit Applications.
- (1) After all Applications have been either granted conditional approval or denied the Community Development Manager shall then sort the Applications by the type of Facility permit requested. If there are more conditionally approved applications than available permits, then the following steps shall be followed to establish applicant eligibility.
 - (2) The Community Development Manager shall then sort applications by share of local ownership, with those applications demonstrating a minimum 33% local ownership stake (as evidenced by clear ownership documentation provided to the Community Development Manager such as partnership agreements, ownership stakes, tax bills, voting records and the like) classified as Lottery #1 and those not establishing a minimum 33% local ownership stake classified as Lottery #2.

- (3) Each conditionally approved Application demonstrating minimum local ownership stake of 33% will be entered into Lottery #1 by Facility type to determine which Applications may submit special use permit applications. Each Facility type shall be drawn by random lottery as follows.
 - (i) For Provisioning Centers the Community Development Manager shall randomly draw the name or number of each Provisioning Center Applicant until all conditionally approved applications are drawn. The Applicants drawn may then apply for a special use permit.
 - (ii) For each other Facility type, the Community Development Manager shall randomly draw the name or number of the Applicants until all conditionally approved applications are drawn.
 - (iii) The number of special use permit applications submitted may not exceed the number of available Permits under this Chapter. In each Facility type, the number of Applicants drawn equal to the available Permits under this Chapter at the time of the lottery may apply for a special use permit. Applicants drawn after the number of available Permits will retain that lottery position as provided in this Chapter.
 - (iv) The Community Development Manager shall maintain a record of the lottery results and order of drawing for each Facility type until December 31 of the year in which the lottery occurred. Lottery positions do not confer any right to a Permit under this Chapter.
 - (v) All lottery drawings shall be conducted publicly by the Community Development Manager with the date and time published on the City's website and all entrants provided notice.
 - (vi) Should there be available permits following the completion of Lottery #1 for all facility types, then the same process shall be employed, if necessary, as Lottery #2 to determine non-resident eligibility for application for a special use permit.
- (3) All special use permit applications must be submitted within sixty (60) days of the lottery or notice under this sub-section. If the Applicant does not timely submit a special use permit application or a special use permit is denied, then the Community Development Manager may consult the lottery results and notify the next Applicant that they may apply for a special use permit.
- (f) **Renewal Application.** The same requirements that apply to all new Applications for a Permit, except for special use permit and lottery requirements, shall apply to all Renewal Applications. Renewal Applications shall be submitted to and received by the Community Development Manager not less than ninety (90) days prior to the expiration of the annual Permit,. A Permit Holder whose Permit expires and for which a complete Renewal Application has not been received by the expiration date shall be deemed to

have forfeited the Permit under this Chapter. The City will not accept Renewal Applications after the expiration date of the Permit.

(g) Issuance of Commercial Medical Marihuana Facilities Permit.

(1) An inspection of the proposed Commercial Medical Marihuana Facility by the City shall be required prior to issuance of the Permit. Such inspection shall occur after the potential Permitted Premises are ready for operation, but prior to the stocking of the business with any Marihuana, and prior to the opening of the Facility or commencement of operations. The inspection is to verify that the Facility is constructed and can be operated in accordance with the Application submitted and the applicable requirements of this Chapter, the special use permit, and any other applicable law, rule, or regulation.

(2) After verification the Facility is constructed and can be operated in accordance with the Application submitted and the applicable requirements of this Chapter, the special use permit, and any other applicable law, rule, or regulation, and the issuance of a permanent certificate of occupancy for the Facility, the Community Development Manager shall issue the Permit for a term of one (1) year.

(3) Maintaining a valid License is a condition for the issuance and maintenance of the Permit issued under this Chapter and the continued operation of any Facility.

(4) An Applicant or Permit Holder has a duty to notify the Community Development Manager in writing of any pending criminal charge, and any criminal conviction or any violation of a local law related to the cultivation, processing, manufacture, storage, sale, distribution, testing or consumption of any form of Marihuana; the MMMA; the MMFLA; any building, fire, health or zoning statute, code or ordinance related to the cultivation, processing, manufacture, storage, sale, distribution, testing, or consumption of any form of Marihuana by the Applicant or Permit Holder, or any owner, principal officer, director, manager, or employee of the Applicant or Permit Holder, within ten (10) days of the event.

(h) Applications for new Permits where no building is as yet in existence. Any Applicant for a Commercial Medical Marihuana Facility Permit whose building is not yet in existence at the time of the City's initial approval shall have one year immediately following the date of the City's initial approval to complete construction of the building, in accordance with applicable zoning ordinances, building codes, and any other applicable state or local laws, rules, or regulations, and to commence business operations.

(i) Duty to Supplement. If, at any time before or after a Permit is issued pursuant to this Chapter, any information required in the Application, the MMFLA, or any rule or regulation promulgated thereunder, changes in any way from that which is stated in the Application, the Applicant or Licensee shall supplement such information in writing within ten (10) days from the date upon which such change occurs.

(j) Permit Forfeiture. In the event that a Commercial Medical Marihuana Facility does not commence operations within one (1) year of issuance of a Permit, the Permit shall be

deemed forfeited; the Facility may not commence operations and the Permit is not eligible for renewal.

Sec. 9.5-44. - Operational Requirements – Commercial Medical Marihuana Facilities.
