VIII. Plan Review Required				
Detailed construction documents must be submitted with any application for a building permit, unless waived by the building official when code compliance can be determined based on the description in the application, and the appropriate fee(s) must be paid in full before a permit can be issued.				
Construction documents must be sealed and signed by an architect or professional engineer in accordance with 1980, PA 299 as amended. The seal and signature is not required for one and two family dwellings less than 3,500 square feet of calculated floor area and public works less than \$15,000 in total construction cost. The building official also reserves the right to require architect or engineer supervision on any other construction method deemed unusual or non-typical.				

IX. Zoning/Land Use Review – For All Exterior Site Improvements	
For all projects that include exterior site improvements, a zoning/land use review is required. Exterior site improvements include but are not limited to grading, new driveways, retaining walls, patios, and decks. Please submit a site plan and details to demonstrate compliance with the Zoning Ordinance. Some improvements may also require approval by the Planning Commission. Any work in the City right-of-way will require a separate application and review from the Department of Public Works.
