## SITE PLAN REVIEW APPLICATION PROCESS

*See Section 40-115.05 of the Zoning Ordinance for a complete set of regulations.*

- 1. Step 1 - Application for Site Plan Review is filed:** An application is deemed complete upon submission and acceptance of the completed application form and all required documentation. Incomplete submissions will receive a list of items needed to make the submittal complete. Once an application is deemed complete, a petitioner will be scheduled on the next available Planning Commission's agenda. The meeting shall be held within forty-five (45) days of the date of the receipt of the complete plans and completed application.
  
- 2. Step 2 – Staff Review:** A basic site plan is reviewed by the Zoning Administrator in accordance with Section 40-115.06. The applicant and the Zoning Administrator shall sign an approved basic site plan, and a copy shall be kept on file with the City for future review and enforcement.  
  
A detailed site plan submittal is reviewed by the Zoning Administrator, and when necessary, the Building Official, the Department of Public Safety, City Engineer, County Health Department and the Michigan Department of Transportation. The Zoning Administrator and City officers and agencies shall have forty-five (45) days from receipt of a complete site plan review application to prepare staff comments on the application.
  
- 3. Step 3 – Planning Commission meeting:** A meeting shall be scheduled for a review of the application, plans, and of the recommendation of the Zoning Administrator. The applicant will be notified of the date, time and place of the meeting on the application not less than three (3) days prior to such date.

**Term of Approval of the Site Plan** *(see Section 40-115.08 of the Zoning Ordinance)*

Approval of the site plan shall be valid for a period of one (1) year after the date of approval. The Planning Commission may grant extensions if applied for and granted in writing. The reasons for extensions may be the inability to complete the requirements, financial constraints, regulatory approvals or other proven hardship. If a Land Use Permit has not been obtained or the on-site development has not commenced or is not making reasonable progress within said one (1) year, the site plan approval shall become null and void and a site plan approval application shall be required and approved before any construction or earth change is commenced upon the site.

## SITE PLAN REVIEW APPLICATION PROCEDURES

*See Section 40-115.04 of the Zoning Ordinance for a complete set of regulations.*

### Detailed Site Plan

1. Twelve (12) copies of the site plan prepared by an Engineer, Architect, Landscape Architect or Planner licensed to work in Michigan and shall include and illustrate at a minimum the following information:
  - A scale drawing of the site including the date, name, address and professional seal of the preparer. In no instance shall the scale of the drawing be greater than one inch equals 20 feet nor less than one inch equals 200 feet. One copy shall be submitted in a photo-reduced form on 17" x 11" paper.
  - The scale of the drawing and north arrow.
  - A vicinity map illustrating the property in relation to the surrounding street system as well as the uses on, and zoning of, adjoining parcels.
  - Topography of the site and its relationship to adjoining land illustrated at 2-foot contours and including an area extending 100 feet from the parcel boundary.
  - Proposed changes to the topography of the site illustrated at no greater than two (2) foot contours and quantities of soil to be removed or added.
  - Existing man-made features, including buildings, fences, landscaping, parking, screening and the locations, heights and footprint of each.
  - Illustration of all proposed improvements and buildings, fences, landscaping, parking and screening, including location, height, footprint of each.
  - Setback lines and their dimensions.
  - Percentage of land covered by buildings and impervious surfaces and that reserved for open space.
  - Dwelling unit density where pertinent; including a density schedule demonstrating number of each dwelling type, if applicable.
  - Project phasing, if applicable, including approximate commencement and completion dates of each phase.
  - Location of public and private rights-of-way and easements contiguous to and within the proposed development which are planned to be continued, created, relocated or abandoned, including grades and types of construction of those upon the site.
  - Curb-cuts, driving lanes, parking and loading areas, including the number of parking spaces and parking calculations; vehicular circulation patterns and features, location and size of all parking spaces and the identification of service lanes and parking.
  - Curb-cuts and driveways on adjacent properties.
  - Location and type of drainage, sanitary sewers, storm sewers and other facilities, including surface and subsurface drainage for all impermeable surfaces on the site and all drainage calculations.
  - Existing and proposed water main, sanitary and storm sewer, natural gas, electric, telephone, cable television and other utilities, the proposed location of connections to existing utilities and any proposed extensions thereof.
  - Soil erosion, sedimentation and dust control measures which shall include preventative soil erosion devices or measures, both during and after any site work related to the development.
  - Detail on proposed signage
  - A lighting plan
  - A written and illustrated landscape plan

- If the parcel is a result of a parcel division undertaken after the adoption of this Ordinance, the site plan shall illustrate all structures and buildings, drawn to scale located on the previously undivided property.
  - Any required approvals, permits, changes or modifications required by any applicable regulatory agency.
  - Written and illustrated documentation of measures to comply with the requirements of any City stormwater provisions.
- Special Studies or Research** *(See Section 40-115.04(E) of the Grand Haven Zoning Ordinance)*
1. For complex site plans and/or for land uses that may generate significant impacts on surrounding land uses or public facilities, special studies or research may be required as part of the site plan.
  2. The following studies are required for site plan review. Supporting documentation must be included for each of the required studies.
    - Environmental Assessment *(40-115.04.E.1)*
    - Traffic Impact Study *(40-115.04.E.2)*
    - Market Study *(40-115.04.E.3)*
