

I want the COVID-19 vaccine.

North Ottawa Community Health System is pleased to provide you with an opportunity to sign-up for email or text notifications alerting you when appointments become available at our Covid-19 vaccine clinic.

If you want the vaccine, scan the QR code below with your smartphone to answer a few questions and provide contact information. **We will notify you when appointments become available at the NOCHS clinic.** This sign-up is for **notification purposes only** and does NOT schedule you for a vaccine appointment. Receiving notification is not a determination that you are eligible in that phase or guaranteed the vaccine.

Scan the QR code with your smartphone or visit noch.org to register for appointment notifications. Notifications will be made by text or email. No phone calls will be made.
